About QC Kinetix (Winter Park)

At our clinic, we understand how joint and muscle pain, whether acute or chronic, can have a significant impact on your quality of life. Unfortunately, many of the traditional treatment options available for musculoskeletal conditions are often unreliable, invasive, or costly. If you are seeking a solution for your joint or muscle pain, then regenerative medicine could be the right choice for you. At QC Kinetix (Winter Park), we specialize in treating sports injuries, which are a common reason patients visit our clinic. Our team of experts can provide sports medicine in Winter Park designed specifically to target joint pain and musculoskeletal injuries. Regardless of whether you are a seasoned athlete or a fitness enthusiast, our regenerative medicine treatments can help you avoid knee braces and surgery, while also providing pain relief. We offer a free consultation at our local pain clinic to help you determine whether our treatments are right for you. Contact us today to schedule an appointment with our sports injury clinic.
